MioCARE⁺

L130/135

Tablet computers
designed for healthcare

The L130 series from MioCARE are high performance tablets for healthcare professionals.

Featuring an IP67 ingress-resistant housing that can be wiped with alcohol for infection control and MIL-STD-810G drop resistance to concrete, the L130 series is designed for the healthcare environment. The integrated 1D/2D barcode scanner* supports positive patient identification and the hot swap battery provides uninterrupted use 24/7.

The L130 series is secure for healthcare. Two factor authentication is delivered through integrated NFC or optional USB smartcard accessories. Optional mobile device management (MDM) solutions enable full control over applications, encryption, connectivity and more on a single or group user level.

With integrated WiFi, Bluetooth® 4.0 and 3G*, the L130 series offers always-on connectivity in all environments. Retrieve patient data, view lab results in real time and communicate with clinical team members using the integrated cameras and microphone.
